- **ALL ABOUT TOMATO!**

- **Very humorous and vibrant illustrations to
make children like tomatoes**

- **Do you believe that they had a trial in the
USA over a tomato being a fruit or a
vegetable?!**

In the past in the USA, people buying tomatoes from overseas had to pay taxes, because tomatoes were classified as one of vegetables, and the government imposed the tax on buying vegetables from overseas.

So they argued that it was not a vegetable, but one of fruits. What is the truth and what is so different between vegetables and fruits? Let's read this book to find more!
