A beautiful magical picture book that illustrates celebrating a birthday with lit candles on a cake.

Through this book, readers are also able to find a meaning of 'birth' in a beautiful way. When you press spots of the book and turn the pages, they become a butterfly, different kinds of flowers, and a bee, which can fly up when blowing them out.

There are hidden joys with some activities such as pressing spots, opening flaps to find the presents, and blowing candles which are brightly shining with thermal heat around the candlelight.
