

Let's go for a walk and meet animals in the deep forest. Animals are on a colourful journey through the seasons, filled with flowers and plants in spring and summer, vibrant colours of leaves in autumn, and Christmassy elements in winter. You will spot the food elements which just go well with the four seasons.

Cheery Blossom Popcorn

Written & illustrated by Yuyeon Baek

Pub date: March 2020

Format: 210x233mm, 40p

When cold winter turns to mild spring, animals come out of hibernation. They are starving, but there is nothing survived during winter except corn kernels. Animals bring their own belongings like herbs, rapeseed oil, a match, and cook popcorns! With beautiful illustration and mellow colour, you can feel spring in this picture book.
