Welcome to this fantastic world covered with snow!

There would be so many things you want to do when the world is covered in snow like magic. This book is a remembrance of the author's experiences in Iceland, filled with fertile imagination. Or, it may lead to memories and feelings of your childhood. You will love the journey with the boy riding on a snow cloud plane, crossing the secret bridge with white powdered soldiers, being invited to the birthday party of the Queen of the White Powdered Land, and tasting snow flower flavoured ice cream.
