

Let's go for a walk and meet animals in the deep forest. Animals are on a colourful journey through the seasons, filled with flowers and plants in spring and summer, vibrant colours of leaves in autumn, and Christmassy elements in winter. You will spot the food elements which just go well with the four seasons.

Leaf Snack

Written & illustrated by Yuyeon Baek

Pub date: October 2019

Format: 180x200mm, 40p

When the fall has come, Elk starts collecting fallen leaves in good colour. He goes through them carefully, washes them up in the stream, and puts them on a mat in a good sunny day so that the leaves can get dried well. While waiting, Elk collects more petals and pine needles for topping. That is Elk's special recipe to bake the leaf snack.

Once it's done, Elk is going to invite his friends, Wild pig, Rabbit, Squirrel and Bear. You can hear a crunch sound of the leaf snack in the woods in autumn.
